

FIRING HAS BEGUN

In Effort to Bring Down Flag of Revolutionists From Public Buildings.

Many Women and Children Escaped From Ciudad Bolivar Yesterday Before Arrival of Government Troops--Some of Them Were Foreigners.

Soledad, Venezuela, Tuesday, 6 p. m. July 14.—Yesterday morning, the remainder of the government war vessel, with four small craft in tow, arrived off Ciudad Bolivar, without incident. The torpedoes placed by the revolutionists in the Orinoco river, did not explode when the fleet passed them.

Ciudad Bolivar, presents an extraordinary appearance. On all the government buildings, the white flag, the emblem of the revolutionists is hoisted and more than 250 Americans, French, British and other ensigns are flying over private houses. From a distance, the city appears to have been decorated for a holiday.

At three o'clock yesterday afternoon firing was heard north of Ciudad Bolivar, and immediately afterwards, five river steamers recently captured by the revolutionists, the majority of which are the property of the Orinoco Steamship Co., the others being owned by American, English and Irish owners, hoisted the American flag. A number of later boats, the flags were lowered by order of the revolutionists.

At five o'clock yesterday afternoon the steamer Socorro displaying a flag of truce, left Ciudad Bolivar and went along side the Venezuelan war

ship Bolivar, the flagship of General Gomez, commander in chief of the government forces, on board of which a conference took place, between the priest who left Ciudad Bolivar, and visited Lazollina, on the opposite bank of Orinico, Saturday, bearing an American flag and a flag of truce, and other personages. At 9 a. m. the Socorro returned to Ciudad Bolivar, with a letter from General Gomez. At the same hour, heavy artillery and rifle firing was heard south of Ciudad Bolivar. The night passed without further incident. Shortly before 5 o'clock this morning, (Tuesday) the government troops, commanded by Gen. Rivas, the first Lieutenant of General Gomez, were under arms about fifteen minutes march from Ciudad Bolivar, ready to begin an attack on the city. A strong battery of guns had been established on a hill overlooking Ciudad Bolivar, and was preparing to open fire on that part of the city where all the ammunition recently received by General Boland, the revolutionary commander, is stored. It has been learned that many women and children escaped from Ciudad Bolivar, yesterday, before the arrival of the government troops. Among these were many foreigners.

MOB ENRAGED AT TARDINESS

Of Court Broke Into Jail and Hanged Man Charged With Murder.

Kentucky Again to Front with Lynching in Which White Man Is Victim--Lynchers Came Quietly and Unannounced.

Maysville, Ky., July 15.—Enraged at the tardiness of the courts, a mob broke into the Flemingsburg jail this morning, and hanged Wm. Thacker, a white man, who had been given a life sentence for the murder of John Gordon, two years ago. Thacker in a quarrel with Gordon, at Foxport, shot and killed him, and then sat on the body, Winchester in hand, while he smoked his pipe, and dared any one to attempt to arrest him. At the time Thacker escaped, but later was arrested and lodged in jail at Flemingsburg. He was given two trials and finally got a life sentence. Gordon was a good citizen, and an inoffensive man. After being sentenced, Thacker appealed to the court of appeals, and was waiting for another trial. Thacker had some money, and was able to command the support of some influential men, and it was feared that he might escape punishment altogether. The mob collected at Mt. Carmel, where Gordon once lived, and came into Flemingsburg by twos and threes, in order not to arouse suspicion. They advanced upon the jail shortly after midnight. The jailer refused to surrender the keys. He was overpowered, and the keys taken from him. Thacker was hurried to a tree, near the jail, and was given time in which to say his prayers, which he refused to do, but begged for his life. To hush his cries, he was hit on the head with a rock and his unconscious body strung up, until life had become extinct.

THE BEAR IS SHOWING

Clemency to His Subjects by Using Birch Bark Whips to Punish

In Place of Historical Cudgel and Cat-o-Nine Tales Under Whose Touch Many a Soul Went Out. Hundred Days Solitary Confinement One Method.

St. Petersburg, July 15.—The Birzhavia Vedomosti in a leading article says: "The Czar has abolished the harshest remnants of the barbaric punishment of former times, namely, chastigation with cudgels and cat-o-nine-tails, chaining to the car and shaving the head, which were still inflicted for certain offenses on persons exiled to penal settlements or to the mines. Chastigation with cat-o-nine-tails and even with cudgels not infrequently ended in death and was one of the hardest forms of the death penalty, being death by texture. Only the most hardest prison administrators could stand the terrible sight of the death of human beings under the measured blows of the cat-o-nine-tails. The cudgel and the 'cat' are replaced in the new statute, says the newspaper, by prolongation of terror by solitary confinement up to one hundred days, with bread and water, except every third day when hot food will be served at one meal. The abolition of the cudgel and the 'cat' does not however mean the prohibition of corporal punishment altogether. The revised statute of June 15 prescribes chastisement with birch rods up to one hundred blows, 'for slight offenses and misdemeanors' according to the same authority, and the matter is left entirely to the discretion of the prison authorities or of the local governor."

RECEIVER ASKED FOR

Universal Tobacco Co. Officers Charged With Managing It Badly.

Trenton, July 15.—Chancellor Magee today granted a rule to show cause why a receiver should not be appointed for the Universal Tobacco Co. The request was granted on the application of Edwin McAlpin and it is returnable at Jersey City, August 3.

The assets of the company are given as \$1,135,010 and the liabilities \$402,745.

It is charged, however that assets of \$532,000 represent raw material which would not bring over \$275,000 at forced sale and that the machinery

can rightfully be made against American citizens on account of religion, as an attempt to send all the Russian Jews living in America back to Russia, which already has 3,350,000 Jews, whereas "an equitable distribution" would give Russian only 1,400,000.

By the terms of the will, the land was not to have been the property of the museum until after the death of the two grandsons. This valuable property is in addition to a bequest of about \$5,000,000 which Rogers willed to the Museum direct.

In 1930 the total value of boots and shoes exported was \$590,754; by 1931 it had practically doubled, being in that year \$1,010,228; by 1932, it had doubled again, being in that year, \$2,111,385. The increase in shipments from the United States to the United Kingdom, has been very rapid during the decade, the total value in 1932 being but \$2,160, and in 1933, \$2,013,890. The number of pairs sent to the United Kingdom from the United States was, in 1932, 1,507, and in 1933, 1,035,394; while to British Australasia, the number of pairs sent in 1932, was 8,298, and in 1933, 550,496; to Germany, in 1932, 512, and in 1933, 122,689. The total number of pairs of boots and shoes sent abroad from the United States in 1933, was 3,966,766, and of this number, two-thirds went to British territory, distributed as follows: United Kingdom, 1,035,394 pairs; British Australasia, 550,496 pairs; British West Indies, 289,445; British Africa, 168,097 pairs; Nova Scotia, New Brunswick, etc., 32,380 pairs; British Columbia, 25,959 pairs; Newfoundland and Labrador, 13,194 pairs; Bermuda, 54,678 pairs; British Honduras, 49,621 pairs; British Guinea, 31,451 pairs; and British East Indies, 12,929 pairs, making a total of 2,530,983 pairs sent to British territory out of an aggregate exportation of 3,966,766 pairs.

UNDER CODE ALL PLUMBERS

Must Stand an Examination and Pay \$5 Fee for a License.

Wade Ellis, one of the framers of the municipal code and the republican candidate for attorney general, declares that under the provision of the act, by virtue of the re-enactment of a section, every plumber and master plumber in the state must stand an examination and pay a fee of \$5 to be allowed to work at his trade in any city having a sewer system. He quotes section:

Section 42-3-5 provides that in every municipality of the state having a population of more than 5,000 and having a water supply or sewerage

system, a board of examiners to be composed of the president of the board of health, the building inspector, two masters and one journeyman plumber, shall be appointed by the board of health. It shall be the duty of the board of examiners to examine every person engaged either as master or journeyman in the business of plumbing to ascertain their fitness for the calling. In case they pass an examination, the masters shall pay an annual license fee of \$5, and the journeymen \$1, renewable each year, after the first on payment of a fee of 50 cents. The money is to go into the board of health fund.

NO EVIDENCE WAS PRESENTED

To Show That Adams and Sarber Had Fully Scheduled Assets.

Cleveland, O., July 15.—The hearing in the bankruptcy case of the Adams & Sarber Oil Co., was practically concluded yesterday. C. A. Sarber, the junior partner was placed under examination. Attorney Johnson for the trustee examined with considerable detail the matter of funds that had been withdrawn by Sarber during his connection with the firm. The records show that during the time of operation of the firm Sarber has drawn in the aggregate more than \$80,000. Much of this however, could not be attributed to personal expenditure. A great quantity of checks were presented at the hearing to substantiate these facts.

After the hearing had adjourned all the attorneys interested in the case joined in agreeing that no evidence had been introduced to show that all the assets of both men and the firm were properly and fully scheduled in the petitions.

The hearing was adjourned at noon until Wednesday. At that time it is expected to conclude the examination.

There was talk of lynching them, but the prompt action of the police in hurrying the negroes out of town averted the trouble.

FENCE CRAFT BEATS BRICK

Made of Gold? Is Doing Hancock County Farmers Out of Cash.

The Findlay Jeffersonian says that a number of farmers in Hancock county have been and are being worked by a set of sharpers who claim they represent a manufacturing company at Huntington, Ind. Several complaints have reached banks, and attorneys in that city within the past few days, and more are expected.

The plan adopted by these slick fellows is as follows: They approach a farmer and show him a machine to be used in making wire fence and offer to make him the agent of the company for a township or two. As a guarantee of good faith they ask the farmer to sign a note for \$300, agreeing to return the note as soon as the agent has sold a certain number of the machines. As a further inducement they sell the machine to their agent for \$5 each, and credit him with \$2.50 on the note. They agree that the note shall not pass from their possession, but shall be returned to the giver in due time.

It is thought, that fully half a dozen farmers have been caught by this game, for game it is. Already several notes have turned up in the banks where they are now held against the giver, and today a well-known farmer residing south of Mt. Blanchard, called on a prominent Findlay lawyer and sought counsel. He had been a victim and wanted to know what he could do to get relief. The best thing for farmers, or anyone else, to do is to read the home newspapers and be on their guard.

WIFE

Sent Him Out of
Town
And the CaseAt Delphos Was Not
Brought to TrialA Divorce Case in Which the
Parties Had an Un-
derstanding,Mr. Mills Agreeing to Leave Town
for the Seventh Time and
Leave His Family in
Peace and Quiet.

David H. Mills, defendant in an ac-
tion for divorce filed by attorney Lin-
dermann, of Delphos, Monday, has left
his home and family and is supposed
now to be located in Chicago. If he
remains as long as the invitation calls
for, Mrs. Mills will be as absolutely
divorced, so far as his presence is con-
cerned, as if a decree had been granted.
Deputy Sheriff Summers returned
from Delphos yesterday, where he
went to serve a summons on the de-
fendant, and was landed in time to de-
liver the papers before the latter left
for the west.

It developed that Mills had been
arrested on a peace warrant, filed by
his wife and that he was charged with
having attempted her life with a
razor. Mills was arrested, but when
it came to a trial, Mrs. Mills refused
to prosecute and dismissed the action
with the understanding that her hus-
band would leave Delphos and promise
not to return.

Justice D. E. Baxter before whom
the affidavit was filed, dismissed the
defendant, and since this happens to
be the sixth time the husband and
wife have separated it is not likely
that the divorce proceedings will
come to a final hearing.

Prisoner Brought Back.
Deputy Sheriff Summers performed
a double duty at Delphos, yesterday
afternoon, having served a divorce
summons in the Mills case, and taken
under care a man who is charged with
attempted burglary. The prisoner,
who is now confined in the county jail,
is Lee Bishop, and it is alleged that
he is attempting to rob the residence of
Mr. Gingery. Mayor Bliss fixed his
bond at \$300, and not being able to
get security, Bishop will remain in
custody until the fall grand jury con-
venes.

CONDITION
OF PONTIFFShows no Change Since Yesterday. No
Recurrence of Delirium.

Rome, July 15.—2 p. m.—The Pope's
condition shows practically no change
since yesterday. After a compara-
tively quiet night, he became restless
during the forenoon hours and com-
plained of his inability to sleep. He
turned uneasily from side to side and
seemed unable to settle himself in a
comfortable position, but there was no
recurrence of those dangerous periods
of delirium, which aroused such ap-
prehension yesterday.

The doctors continue to feel that
the patient's condition is extremely
dangerous, but they say he may still
linger for days. They report that all
of the ordinary calculations are quite
likely to fall in the present extraor-
dinary case. Speaking of the specific
conditions, the doctors say that they
think the pneumonia has practically
disappeared. The regathering of
liquid in the pleura is so slight as to
cause the patient no trouble. The
chief remaining danger lies in the al-
most complete prostration, succeeding
the acute stages of the disease.

Morning Bulletin.

Rome, July 15.—9 a. m.—The follow-
ing medical bulletin has just been is-
sued:

"During the night the Pope had
several hours rest. His pulsation is
82, respiration 30, temperature 36.2
centigrade. There has been no notice-
able change in the general condition
of the august patient."

LEO

Declared He Felt Much Better Than
Yesterday Morning.

Rome, July 15.—9.50 a. m.—When
Dr. Mazzoni entered the Pope's sick
room this morning he found His Holi-
ness in almost the same condition as
last night. Pope Leo said:
"I feel better than I did yesterday
morning."

On leaving the Vatican, Dr. Mazzoni
in reply to the query, "Is the end im-
minent?" answered, "It cannot be cal-
led so. 'Then is it near?' was asked.
To this Dr. Mazzoni replied, 'In order
not to make a mistake let us say, it is
not far distant'."

THE END

Will Come Through Exhaustion, in-
stead of by Cardiac Paralysis.

Rome, July 15.—11.35 a. m.—The
official news received by the Associ-
ated Press from the Vatican during the
past 24 hours states that in his delir-
ium, the Pope spoke especially of

pilgrimages and recited discon-
nectedly, Latin verses. He often
seemed panic stricken, crying to Dr.
Lapponi, his valet Centra, and Mon-
signor Angeli, one of his secretaries,
"Where are you? Do not abandon
me!" The delirium ceased entirely at
4 o'clock, when His Holiness again re-
vived. Having eaten nothing through-
out the day he was then given four
spoonful of meat broth and masticated
some beef without swallowing it.

From midnight up to 5 o'clock this
morning the Pontiff was constantly
crawly. The urine has become less
in quantity. Pope Leo in the past 24
hours having passed 30 cubic centi-
meters. The liquid in the pleura does
not show much tendency to gather
and the doctors think likely the end
will come through exhaustion and
anemia instead of as a result of car-
diac paralysis.

May Linger Several Days.

Rome, July 15.—11.05 a. m.—Dr.
Lapponi left the Vatican this morning
to pay another visit to his daughter,
who is suffering from a fever. He
said, in reply to inquiries, that the
Pope might linger some days longer.

Pope is restless. Complains that he
cannot sleep and is constantly shift-
ing his position in bed.

Washington, July 15.—The follow-
ing cablegram from Cardinal Ram-
polla was received this morning by
Mgr. Faconio, the papal delegate:
"Holy father has passed a fairly
tranquil night. His condition re-
mains unchanged."

No Special Phenomena.

Rome, July 15.—7.25 p. m.—The
following bulletin has just been is-
sued:

"During the day no special pheno-
mena were noticed in the general con-
dition of the august patient. The de-
pression in his strength was not aug-
mented. Respiration, pulse and tem-
perature about stationary. Respira-
tion 30, temperature 36.4, centigrade;

IDENTITY OF PRINTER

Who Was Killed by a C. H. & D. Train
Last Week Is Established.

Unfortunate Man Was a Brother of E. W. Jackson of This City and Was at One Time a Prominent Resident of Hartford City, Indiana.

The identity of the unfortunate man who was killed by a north bound C. H. and D. freight train, near the Elm street trestle, on the afternoon of Tuesday of last week, July 7, is now believed to have been fully established and the most unexpected and interesting feature of the discovery is that the deceased was a brother of one of Lima's old and well known citizens. Information received by the Times-Democrat and by undertaker H. W. Bennett from Goodland and Hartford City, Ind., is authentic, the unfortunate man was a brother of E. W. Jackson, the well known citizen of north Union street.

To undertaker Bennett is due the credit for following up what seemed to be a hopeless clue, but which, through his efforts led to the discovery that have established the identity of the man whose mangled remains were given a resting place in the little cemetery at the county infirmary.

In the torn and bloodstained clothing of the dead man were found a small memorandum book and the reading from a paper that is published in Chicago in the interests of subscribers. On this slip of paper appeared the name "Roy Shepard" evidently that of a subscriber to the paper. Mr. Shepard wrote to the publishers of the paper and from them learned that they had a subscriber named "Roy Shepard" at Goodland, Ind. Mr. Bennett referred to the latter and enclosed the memorandum book and received the following reply:

Goodland, Ind., July 11, 1933.
H. W. Bennett
Dear Sir: Yours of the 10th at hand I have seen the memoranda before, and recognize the writing. It is the one which Mr. Jackson kept his coat when in my employ, as a printer. He worked for me over six months. On the 6th of July he started for Hartford City, Ind., to visit a brother whom he said lived there. He also has a daughter and a divorced wife living some where in Illinois, but I have not got the address.

He was 70 years of age, older than I looked. Wore a beard. Very like my father. I can get track of his family by finding his brother at Hartford City, Ind. Please let me know of your

Yours Respectfully,
ROY SHEPARD

Mr. Shepard next wrote to Hartford City, Ind., informing his communication to the Daily Times of that place and the following:

Dear Mr. Kinsley: I today received the following letter from H. W. Bennett of Lima, Ohio undertaker:

Dear Sir:—On the 7th a man about 70 years of age with whiskers and moustache, a printer by trade, was killed by a C. H. & D. train. He left a very small amount of information, in fact, only the name of the man for whom he worked before he left Goodland, Ind., Roy Shepard, by name.

He left Goodland on the 6th of July, being killed the next day. He was intoxicated when killed. His name so Mr. Shepard informs me, is Jackson, also that he left Goodland to visit a brother at Hartford City, Ind., but Mr. Shepard did not know the first name. He also has a divorced wife; also a daughter in Illinois. Will you kindly give me any information possible regarding his brother?

The body was so badly mutilated that we were obliged to bury same on the 9th of the month in the infirmary grounds. Any information you may be able to give, will be greatly appreciated. Thanking you in advance for same, I am,
Yours Very Respectfully,
H. W. BENNETT

There is very little doubt that the man referred to is Charles Jackson, a brother of E. W. Jackson, who is now a resident of Pentliden. A surprising thing in connection with the case is the fact that a brother of the deceased printer, resides in Lima. Charles Jackson was formerly a highly respected citizen of Hartford City. He conducted a newspaper here in the early days and was possessed of considerable means. He had a weakness for liquor, however, which led to his ultimate downfall, and after an estrangement with his family, became a wanderer on the face of the earth—a printer whose sole ambition was to get a few days work in a town and then pass on to the next.

Charles Jackson's last visit to Hartford City, was in 1924. On that occasion he worked in the local newspaper offices for a few days. He left Hartford City, and nothing has been heard of him until the receipt of the letter by Mr. Kinsley, which seems to indicate that the troubled spirit of a once respected newspaper man has finally been released by death. Charles Jackson's brothers in Lima and Pentliden will be communicated with at once, and the full circumstances of the case will be made known.

Charles Jackson is remembered by several of the older citizens of Lima, he having made this city his home for some time, between 30 and 40 years ago but no one who saw the mangled remains that were held at Bennett's mortuary for two days, was able to identify them, or even even thought of the possibility that the lifeless form was that of Charles Jackson.

FAVORABLE CONDITION

Of Assaulted Child, With Strong Police Force Prevented Another Lynching Story.

Albany, N. Y., July 15.—James Little, the negro who assaulted a little girl near New Baltimore, yesterday, and who was removed to the Catskill jail, for fear a mob would lynch him, was taken back to New Baltimore today. The purpose of removal was the arraignment of the prisoner before a local justice. The negro was an abject wreck, through fear, although he was guarded by an especially strong sheriff's posse in anticipation of trouble. At New Baltimore, a mob composed of farmers, striking molders from Cossackie and boat hands, had gathered. Among them was Joseph Cole the father of the eleven year old girl assaulted. Cole was in an excited state and as the boat was docked, drew a revolver. He was quickly disarmed by deputy sheriff Gould, who succeeded in quieting him. The prisoner was taken safely to the jail, justice of the peace Nelson refusing to begin his examination until counsel was present. Counsel from Cossackie will go there today or tomorrow. The favorable condition of the assaulted child has somewhat allayed the excitement although there is still danger of an outbreak.

PEACH CROP SAFE.

Cleveland, O., July 15.—Advisers from the agricultural districts indicate that the Ohio peach crop this year, will be large. Trees are generally reported to be heavily laden, and a short spell of favorable weather will ripen the early varieties of white peaches.

UNDER MORAL BUT NOT LEGAL

Obligation to Support His Plural Wives and Educate His Children.

Salt Lake, Utah, July 15.—According to a decision of the state supreme court a man is under moral but not legal obligations to support his plural wives, and educate his children, by such unions. The decision was rendered on an appeal from the Utah county district court of a suit for separate maintenance brought by Mary Caroline Riddle, a plural wife of Isaac Riddle. The supreme court is of the opinion that "notwithstanding celestial or plural marriage is one of the essential tenets of the Mormon church, the legal status of marriage exists between parties who in Utah before the enactment of any statute upon the subject though members of that church, having made a contract of marriage in which they mutually agree to assume and observe the legal obligations of that relation and in pursuance of that agreement to openly cohabit as man and wife, and hold themselves out to the public as such. But in the absence of such an agreement, the legal status of marriage cannot arise."

The Ladies Aid Society of First U. B. church, will meet Thursday afternoon at the church. All members please be present.

THREE CASES YELLOW FEVER

Have Entered Havana Harbor This Year—All From Mexican Ports.

Havana, July 15.—Dr. Barnett, the acting chief of the sanitary department, announces that only three cases of yellow fever have entered Havana harbor, this year. Of the three, all of whom came from Mexican ports, one died, and another was discharged today as cured. The remaining victim of the fever, now here, came to Havana from Progreso, by representing himself as a passenger who had previously registered as an immune. The governments surgeon at Progreso, Dr. Pla, has been recalled to Havana, and probably will be dismissed for relying on a passenger's sworn statement without investigating.

The best freight run ever made across the states of Ohio and Indiana, was accomplished by a train of fifteen cars loaded with lemons, over the Pittsburgh, Ft. Wayne and Chicago road, last night and this morning. It left Crestline in charge of conductor Linniger and engineer Stafford, hauled by engine 7365, at 11:05 p. m., and reached Port Wayne at 2:26 a. m., having covered the 131 miles in three hours and twenty-one minutes. The train left this city at 2:30 a. m. and reached Chicago at 8:30 a. m., consuming six hours in running 148 miles. A part of this trip was made at passenger speed, for instance: The train left Plymouth at 5:49 and reached Clark's Junction, sixty-two miles, at 7:20, consuming en route one hour and thirty-one minutes and traveling at the rate of about forty miles an hour. From this city to Chicago the train was in charge of conductor A. Miller and engineer A. Wood. Clark Junction is twelve miles out from Chicago and the train consumed one hour and ten minutes in getting over this piece of track. It will be noted that only four minutes were consumed in exchanging engines and getting the train started again in this city, which is also an interesting feature of the run—Ft. Wayne Sentinel.

Four special trains passed through Lima, this morning over the C. H. & D. between 8:30 and 9:30, for Detroit with delegates to the Epworth League meeting. The train carrying the Cincinnati people left there early today. The other three trains were made up of three sleepers and one coach from Knoxville, Tenn., two sleepers and three coaches from Chattanooga, one sleeper from Atlanta, one sleeper from Nashville, and two from Dallas, Texas, and a special train of five cars from Louisville.

Between Toledo and Detroit, some of the trains will be run over the Michigan Central and others over the Lake Shore road.

The Young Veterans.

A special train over the C. H. & D., yesterday, carried 200 soldiers from Ft. Thomas. The boys were en route to Detroit, to attend the reunion of the Spanish-American war veterans.

Official announcement was made Monday that the Pennsylvania lines west of Pittsburgh had all their yards and local freight employees free from work from midnight Saturday until 6 o'clock Monday morning. This was the first observance of Sunday on the busy lines west in several months. It shows that the officials have recognized that a great relief has come in the matter of freight movements.

A corps of Pennsylvania engineers have just set out to commence the work of making a survey of the line of the old Columbus, Sandusky & Hocking, and also to locate the right of way. It is the intention of the Pennsylvania to practically rebuild the line from Sandusky to Columbus, including a new passenger station at Sandusky, which has been very much needed.

One of the troubles met with since the telegraph poles of the Western Union Telegraph company were cut along the Pennsylvania railroad has been the matter of securing telegraph poles for the Postal Telegraph company. The telegraph company will use the private wires of the Pennsylvania railroad for some time in connection with its own, and it is said that by another year the company will have its own 12,000 miles of wiring completed. It will be probably six months before the whole stretch of wiring will be completed from Pittsburgh to Philadelphia. There are now about 25 miles up, and on each of the divisions the work is progressing about one mile a day.

Down along the Pennsylvania railroad about Sang Hollow in Pennsylvania may be seen a dozen steel, A-

BEEF

To Step Aside for Tobacco.

Wiley to Test

Effect of the Weed on Men.

For Full Thirty Days the Filthy Will Be Denied the Boys

And Then All Brands From Best Havana Cigar to the Odorous Obnoxious Cigarette Will Be Given Them.

Prof. Wiley, chemist of the agricultural department, will conduct another experiment this fall which will attract as much attention as did the famous squad of twelve "poison eaters" that for seven months was subjected to experiments with food adulterants at Prof. Wiley's "borax boarding house." The experiments to begin in the fall will be for the purpose of determining the effect of tobacco, good, bad, and indifferent, pure and impure, and domestic and imported, upon the heart, lungs, and digestive organs and the human system generally.

Prof. Wiley believes the experiments will not only be of interest to the smokers throughout the country, but will prove of value to the manufacturers of various forms of tobacco. During the first thirty days of the experiments the members of the squad will not be permitted to use tobacco in any form. Thus all the members will begin on the same basis.

After the expiration of the thirty days each man will be given an allowance of tobacco each day. What will be known as "smokers' squad" will begin its work with three cigars a day, one to be smoked after each meal. Gradually this allowance will be increased. Cigars of every kind will be used, including domestic Porto Rican.

Very Remarkable Cure of Diarrhoea.

"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan, Texas. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by Wm. M. Melville, old post-office corner.

IN EFFECT FAR REACHING

Was the Conference Between Hay and Hansen—Developments Can Be Expected.

Washington, July 15.—Far reaching in its effect on the Manchurian situation was the conference at the state department between Secretary Hay and Theodore Hansen, the Russian charge d'affaires, who called, it is understood, to bring important advice from St. Petersburg regarding the ports in Manchuria, which Russia is willing China shall open to the United States. This has been the question that has deadlocked the negotiations for some time. What transpired at the conference can only be surmised, as both of the conferees declined to discuss the meeting. Immediately after Mr. Hansen's departure, Mr. Hay sent for Mr. Rockhill, chief of the bureau of American Republics, and formerly American commissioner to China and the two were in conference until luncheon time. Mr. Rockhill's intimate knowledge of the eastern question gained through his residence there, is duly appreciated at the state department and before Count Cassini's departure he was frequently at the negotiations. It was indicated by a state department official that the next few days might bring to light important developments regarding the Chinese-American treaty.

A. R. Baas, of Morgantown, Ind., had to get up ten or twelve times in the night and had severe backache and pains in the kidneys. Was cured by Foley's Kidney Cure. Sold by H. F. Vorkamp, cor. Main and North Sts.

Rutland, Vt., July 15.—Rufus Young, considered by the police as the most accomplished horse thief in New England, who yesterday was captured near Arlington, after a battle with a sheriff's posse in which Young was shot, is dead. Young was about 56 years old. More than two-thirds of his life had been spent in horse stealing.

YARD HELPERS STRIKE.

Buffalo, July 15.—Two hundred members of the Ship Yards Helpers' Protective Union employed at the Buffalo dry dock have struck. The dry dock is owned by the American Shipbuilding Co. CROP REPORT.

Washington, July 15.—The weather bureau's weekly report is as follows:

The temperature during the week ending July 13 was very favorable in all districts east of the Rocky mountains and on the Pacific coast but in the northern Rocky mountain and middle plateau regions it was too cool, with frosts in exposed places on the 7th and 8th. Portions of the lower Ohio and central Mississippi valleys, southern Florida, western Texas, northern Minnesota and the southern Rocky mountain districts are in need of rain but elsewhere there is ample moisture; northern Iowa, southern Minnesota, and portions of the south Atlantic and east gulf states have suffered from excessive rains.

Corn has everywhere made splendid growth and is much improved though generally backward and in portions of the upper Ohio valley and middle Atlantic states is weedy. The early planted is now in tassel in the more northerly districts, and a considerable part of the crop has received final cultivation.

The week has been very favorable for harvesting winter wheat, which work is very largely completed except in the more northerly sections. Threshing has made good progress and the reports generally indicate light yields. A feature of the reports, respectively winter wheat is the entire absence of injury to grain in shock and stack.

In northern Minnesota and North Dakota spring wheat is thin and heading short, and lodging is reported from portions of southern Minnesota and South Dakota, while rust is reported from the last named state and Iowa. In Kansas, Wisconsin, and the southern part of South Dakota spring wheat is heading well, and very favorable reports are received from Washington and Oregon.

Considerable rust in oats is reported from Iowa, Missouri and Illinois and lodging from South Dakota and southern Minnesota in North Dakota and northern Minnesota the crop is thin and heading short, but continues promising in Nebraska, Wisconsin, Michigan and Pennsylvania. Harvest is in general progress in the central valleys, good yields being reported from Missouri, Nebraska, Kansas and Oklahoma, but light yields from the states of the Ohio valley.

The general outlook for tobacco is very promising, the least favorable reports being received from Ohio, where, however, the crop is doing fairly well.

Only a fair crop of apples is indicated in the most of the principal apple states, the most favorable reports being received from Kansas and Iowa. Haying has been delayed by rains in Iowa, Wisconsin and southern Minnesota, but elsewhere has made excellent progress. A heavy yield of clover and timothy is being secured in the central valley.

Policeman Frank Grant, who was summoned to the scene, called a cab and had the woman taken to the police station, where she asked for whiskey and said she had jumped into the creek because her mind was weighed down with troubles. The police were of the opinion that the aged woman was either under the influence of liquor or was temporarily demented and they summoned her husband, who took charge of the prisoner and took her home.

Last month was a little larger as to totals but the average for 12 months in the year is enough to convince the business men of Lima, that the C. H. & D. is a good thing to tie to.

Grading About Completed.
It is now expected that the work of grading for the Ft. Wayne, Van Wert and Lima electric line will be entirely completed during the present month. During the past few weeks the company has been bending every energy in rushing the work along, and it has now reached a stage where it is believed little more than two weeks more will be required to entirely finish this portion of the construction work. The Ohio and Indiana construction company directors will hold another meeting in this city, Monday, and at that time it will probably be determined just when the laying of ties and steel is to begin. The securing of the ties has been a serious problem, but recently several big

shipments have been received, and little delay is anticipated from this cause. The company was recently granted an extension of time for the completion of its road into the city of Lima.—Ft. Wayne Sentinel

Earnings of 48 Roads.

Forty-one roads show increases and seven decreases. Since July 1 the roads referred to above earned \$492,779,959, an increase of \$51,695,179 over the \$441,084,780 reported for the corresponding period last year. For the longer period 42 roads show increases and six decreases.
